

Digitimes Research: Global TD-LTE users to reach 70.4 million at end of 2014

[DIGITIMES, 20140707]

The total number of TD-LTE subscribers worldwide increased to 12.48 million at the end of the first quarter of 2014 and will increase to 70.4 million at the end of the year, according to Digitimes Research.

In addition to Qualcomm and HiSilicon Technologies, Marvell, MediaTek and Intel will launch multi-mode, including TD-LTE-supporting, 4G chip solutions in the second half of 2014.

The total number of TD-LTE subscribers will grow to 179.8 million at the end of 2015 and to 276.2 million at the end of 2016.
