

2022 IEEE MTT-S INTERNATIONAL MICROWAVE SYMPOSIUM

Conference 19-24 June 2022 • Exhibition 21-23 June 2022
Colorado Convention Center | 700 14th St., Denver, CO 80202 | USA

2022/6/21-6/23 TMYTEK Booth#2052

This year, TMYTEK will be at IMS 2022 from June 21 to 23. At our booth #2052, we will demonstrate a beam tracking scenario using our mmWave platform with partner's SDR and antenna-in-package solutions for mobile and SATCOM, in collaboration with DuPont and Sentec.

Additionally, we will bring our Developer Kit to the booth. The Developer Kit has everything engineers need for the mmWave research in this box! It is also an excellent teaching tool for students to learn about phased arrays, beamforming, constructive/destructive interference, beam steering, and more.

Meanwhile, you can get IMS 2022 FREE passes with the promo code **10287** via [this link](#). Come and visit TMYTEK from June 21 to June 23.
